the same time, it's important to be realistic. If you want to pursue your dream, you need to be prepared to face the challenges that come with it. This means being willing to work hard, to take risks, and to persevere in the face of adversity. It also means being open to feedback and willing to adapt your plans as you learn more about your field and your audience. Remember, success is not a straight line, and it often takes time and effort to achieve your goals. But if you are committed to your dream and willing to put in the work, you can make it happen.
